

SCHMITZ'S GANG OF MILLIONAIRES ALL ARRAIGNED

Ruef in Court, But Dares
Not Face His Old
Associates.

Arguments Heard for
Setting Aside Certain
Indictments.

SAN FRANCISCO, June 1.—Abraham Ruef, Mayor Eugene Schmitz, President Patrick Calhoun, of the United States, and his associates in the management of the political department of that corporation, Thorneley Mullaly, Tiley L. Ford, and William M. Abbott, and Eugene de Saba, of the Gas Company, all millionaires, were today arraigned before Judge Lawlor on the fourteen indictments charging them with receiving and giving bribes. Their arraignment was continued for a week.

In the same court Louis Glass, of the Pacific States Telephone and Telegraph Company, already arraigned, moved for the setting aside of the indictments returned against him by the grand jury, presenting through Attorney D. M. Delmas a number of grounds on which the motion was based. Argument on the application will be heard next week. At the same time before Judge Dunne, Theodore V. Halsey, alleged bribe agent of the Telephone Company, made a motion similar to that of Glass, giving substantially the same grounds, and his arguments will also be heard next week.

Mayor Schmitz was the first to enter the courtroom, and he seemed very nervous, ill at ease, and there were more lines about his mouth and eyes than showed a week ago.

Calhoun, Ford, and Abbott followed and took seats in the same row. They did not as much as look at each other.

Ruef Confused.

Ruef arrived last. He is getting color in his cheeks, and some of the expression of worry has worn off. There was a hint of the old Abe in the smile with which he nodded to a few friends who bowed to him, but he looked lonely. It was not until the end of the proceedings that Calhoun, standing, saw the man he often saw before. The trolley magnate smiled and bowed to the fallen boss. For an instant Ruef's face was a study. It was plain that he did not quite believe his eyes, but the grin high above him on Calhoun's face did not fade quickly and before it had gone entirely Ruef returned it from a countenance suffused with blushes. He dropped his eyes quickly.

They were cast downward while all passed him, leaving the room, but he missed no further signs of acquaintanceship and left the courtroom last and far behind those arraigned with him.

Playing Close Game.

The proceedings were without color. There was a semblance of a dispute when the counsel for the defendants sought to compel Prosecutor Heney to certify which copies of the evidence taken before the grand jury and on which the indictments were based, offered the defendants as provided by statute, were an accurate and complete transcript of all that transpired before the inquisitorial body, but the prosecution refused to place itself on record as demanded and made it plain by the phraseology of its declaration that there is no intention to expose its whole hand in the game until the trials of the alleged grafters and bribees actually begin.

No pleas were entered by any of the defendants, each requesting a continuance and all went over until next Saturday morning except that of Ruef, who asked that Friday afternoon be set, and his request was granted. The bonds offered for the appearance of each of the prisoners were continued likewise.

YOUNG FRENCHMAN WANTS TO BE GIRL

PARIS, June 1.—A woman often wishes she were a man, but it is not often that this is reversed and a man wishes he were a woman. Yet in Paris there is at least one man who does. He is a young man of twenty, with a beautiful clear complexion and a shy, modest manner. He has always passed for a girl and was employed as an under-nurse at a maternity hospital, until it was time for him to be called up for military service.

Explanation followed, and he was not allowed to continue to be a woman. To his great joy, however, he was declared to be physically unfit for military service, owing to general weakness. He then took a situation as assistant to a chemist. But his youthful face has assumed a fixed sadness. He was easily consoled for not being accepted as a soldier, but full of grace and beauty as he was as a girl, he is inconsolable at belonging to the "ugly sex." His name is Rene Marie Gauthier and he was born at Bussy-le-Grand.

HAYNE DAVIS MOST PROMISING, SAYS AN EXPERT

Hayne Davis, International
Lawyer, Goes as
Correspondent.

NEW YORK, June 1.—Among the passengers who sailed for London on the American transport liner Minnesota today was Hayne Davis, American secretary of the Association for International Conciliation, noted expert on international law, and active promoter of the interparliamentary union. Mr. Davis goes to head a corps of special correspondents who will cover the great Hague peace conference which meets June 15.

Mr. Davis is a North Carolinian, but for many years has been practicing law in New York, where he has gained recognition as an expert on international law. He is an ardent advocate of international peace, and is acquainted with the leading men in Europe, as well as on this side of the water, who will exercise a potent influence on the deliberations at The Hague.

Hopeful for Peace.

Before sailing Mr. Davis said: "I am extremely hopeful that the historic gathering at The Hague on the 15th will result in great good and will bring measurably nearer the abolition of war and the substitution of international arbitration in the settlement of all questions which may arise between nations. Sentiment all over the world is crystallizing in favor of this policy, and while the present conference may not go as far as some of us would like to see it go, it must by its conclusions make decided progress."

Barthold's Scheme.

"The American plan for making The Hague conference a permanent body, with the right to meet periodically and automatically, without waiting for a call to be issued by any government or ruler for the discussion of international questions which the course of events may make paramount in world politics, will be presented to the conference by Richard Barthold, of Missouri, and while it is hardly to be hoped it will be adopted, its discussion must result in good."

Mr. Davis will spend some days in London and Paris, reaching The Hague several days before the convening of the conference.

CAST OFF TRAIN BY NEGRO GANG OF DESPERADOES

Reign of Terror Stop-
ped by a Maryland
Sheriff.

BALTIMORE, Md., June 1.—This afternoon Sheriff Kirk, of Elkton, Md., received word from Baltimore to look out for a desperate gang of negroes who were terrorizing a northbound freight on the Pennsylvania railroad. The gang on the train held up one man, and after robbing him, threw him from the train while it was in motion. They then went for another man, who attempted to get away and was shot by the gang and badly wounded.

The train was stopped at Elkton, and Sheriff Kirk and about fifty citizens, nearly all of them armed, were there to arrest the gang. When ordered by the sheriff to get off the train the negroes drew their revolvers, but the sheriff's posse pointed their weapons at the desperadoes.

Two of them attempted to get away, and John Bradshaw, of Philadelphia, was shot in the leg. As soon as he fell the gang submitted to arrest. The negroes gave their names as George Johnson, Ralph Bridges, T. L. Bridges, George Smith, and Thomas Harrison. The men who were robbed and shot by the gang were at Perryville, and Sheriff Kirk went to that place and brought them to Elkton.
